BIBLIOGRAPHY OF AGRICULTURE

SECTION A
AGRICULTURAL ECONOMICS AND RURAL SOCIOLOGY

Vol. 2

January 1943

No. 1

The Bibliography of Agriculture is issued monthly in six sections.

Section A, Agricultural Economics and Rural Sociology. Supersedes Agricultural Economics Literature.

Section B, Agricultural Engineering. Supersedes Current Literature in Agricultural Engineering.

Section C, Entomology. Supersedes Entomology Current Literature.

Section D, Plant Science. Supersedes Plant Science Literature.

Section E, Forestry. Continues Forestry Current Literature, which ceased publication with v. 7, no. 2, March-April 1940.

Section F, Food Processing and Distribution.

The first number of Section F will be issued in January and will cover the literature on processing and distribution of foods. Those subjects will no longer be included in other sections of the Bibliography of Agriculture. Copies of Section F will be sent only on request.

The edition of the Bibliography of Agriculture is so limited that we are unable to fill all of the requests which we receive for it. If you do not intend to file this publication permanently, please return it to the Department of Agriculture Library so that it may be made available to others.

Abbreviations used in this publication are those listed in U. S. Department of Agriculture Miscellaneous Publication 337, Abbreviations Used in the Department of Agriculture for Titles of Publications. April 1939.

Call numbers following the citations are those of the U. S. Department of Agriculture Library unless otherwise noted.

The Department can supply only its own publications; other items cited may ordinarily be obtained from their respective publishers. Many of them are available for consultation in public or other libraries.

Photoprint or microfilm copies of any publication listed may be obtained from the Library. Order blanks giving prices and method of payment will be sent on request.

"The Australian Food Council has determined how much food is required for the Armed Forces, the civilian population, and export to Great Britain. Production targets for the priority crops have been drawn up and allocations have been made to each State. War Agricultural Committees, under the chairmanship of officers of the Department of Agriculture, are being set up in the principal rural districts of the State for the purpose of assisting in obtaining the production quota... The Committees... will also assist in organizing to the best advantage the labour still in the industry, in obtaining additional labour when this is essential to the war effort, and in arranging for the more efficient use of trucks and farm machinery generally.

"In Victoria seventeen Regional District Committees are being set up, each under the chairmanship of an officer of the Department of Agriculture. Each committee will consist of five members and will include representatives of the farming and business community...

"The committees will assist in solving a number of urgent problems,

but there is none so urgent as conserving the maximum tonnage of hay, particularly grass hay, from the present bountiful pasture growth in the dairy and fat lamb areas of the State."

JONES, SIR EDGAR. Post-war employment and trade. United Empire 33(5): 130-133. Sept.-Oct. 1942. 501 L844U

Suggests the creation of "a Central Development Commission to undertake works of development in all these low standard and depressed countries and make arrangements to use... world surpluses under such schemes of development... If there was a complete organization for disposing of the surpluses it would, in itself, maintain a considerable regularity in normal trade and to a considerable extent would keep a stabilization of prices, not merely because the surplus was being removed, but because by so doing a state of general employment would be maintained, for the primary producers as well as the secondary producers."

KAISER, HENRY J. The American way. Pessimism for post war era assailed. Vital Speeches of the Day 9(4): 118-120. Dec. 1, 1942. 280.8 V83

Address, New York Herald-Tribune Forum, New York City, November 16, 1942.

"We cannot build an enduring peace, nor engage in a promising reconstruction, nor hope for full employment in peace time by the continuation of war methods of financing. The only way to service our vast debt and measure up to the post-war challenge is to produce wealth on a scale never before envisioned; to produce it at new low costs, and to accomplish an abundance and a variety which will call out our total energies and our finest creative powers."

JONES, SIR EDGAR. Post-war employment and trade. United Empire 33(5): 130-133. Sept.-Oct. 1942. 501 L844U

Suggests the creation of "a Central Development Commission to undertake works of development in all these low standard and depressed countries and make arrangements to use... world surpluses under such schemes of development... If there was a complete organization for disposing of the surpluses it would, in itself, maintain a considerable regularity in normal trade and to a considerable extent would keep a stabilization of prices, not merely because the surplus was being removed, but because by so doing a state of general employment would be maintained, for the primary producers as well as the secondary producers."

KAISER, HENRY J. The American way. Pessimism for post war era assailed. Vital Speeches of the Day 9(4): 118-120. Dec. 1, 1942. 280.8 V83

Address, New York Herald-Tribune Forum, New York City, November 16, 1942.

"We cannot build an enduring peace, nor engage in a promising reconstruction, nor hope for full employment in peace time by the continuation of war methods of financing. The only way to service our vast debt and measure up to the post-war challenge is to produce wealth on a scale never before envisioned; to produce it at new low costs, and to accomplish an abundance and a variety which will call out our total energies and our finest creative powers."

ADMINISTRATION, PUBLIC

CLARK, DALE D. The coming era. Cooperative public administration; a study of group participation in the administration of agricultural programs. 333 pp., typewritten. m. n., 1942; Bibliography, pp. 331-333. 281.12 C54

Written in ink on title page: Accepted by Harvard University as a doctor's thesis, 1942.

"The evolution of public administration is reflected in the development of the Department of Agriculture. The scope and variety of its operations make it a fairly reliable indicator of general problems of government. Instituted primarily as an agency for the dissemination of useful information to farmers the emphasis then shifted to regulatory activities and in the past decade has been characterized by direct action programs. These action programs are typical of the role which government is now called upon to fulfill in other fields. The techniques being evolved for the democratic administration of these action programs, the social and economic background, and the underlying philosophic assumptions make up the theme of this dissertation."

ADVERTISING

CLOYES, CORRIE. U. S. manufacturers "up" export advertising; preliminary report on survey conducted by Office of the coordinator of inter-American affairs and Department of commerce reveals 1942 expenditures surpassing production. U. S. Dept. Com. Foreign Com. Weekly 10(2): 10-11, 27, 28-29. Jan. 9, 1943. 157.54 F763

"Started in the summer of 1942, the survey was aimed to ascertain the extent to which United States manufacturers would seek to preserve their brand names and good will in our neighboring republics. It was an important part of an extensive advertising program designed to further our Good Neighbor policy, halt a downward trend in United States export advertising during the early months of 1942, and keep the names of United States products alive in the minds of our neighbors to the South."

"Our food-supply is a subject which interests every inhabitant of these islands, and this pamphlet is designed to answer some of the many questions which the subject provokes: What proportion of our food do we produce at home in peace-time? Of the balance, how much comes from the Empire and how much from other sources? How does the position in this war compare with that in the last? How did our peace-time dietary compare with that of other countries (for instance, Germany), and how must it be altered to meet war conditions? How far have we been able to increase our supply of home-grown food, and how much further are we likely to be able to increase it? In what direction is the greatest effort needed? These and other questions are dealt with."

COMMUNITY ORGANIZATION

MORGAN, ARTHUR E. The small community, foundation of democratic life; what it is and how to achieve it. 312 pp. Bibliography. New York and London, Harper and brothers, 1942. 281.2 M82

"This book is in brief a survey of the field, and a guide to work within the small community." It points out some of the major difficulties facing communities, "the grave dangers to society resulting therefrom," and some of the obvious means for meeting the situation. The emphasis of the book is on the "underlying characteristics of community life...rather than their application to any particular calling." (Introduction) It is divided into four major parts, treating respectively of the significance of the community, community organization, specific community interests, and "concluding observations" (on the pioneer in the community, and freedom in the community).

CONSOLIDATION OF HOLDINGS - EUROPE

TCHERKINSKY, M. The problem of the consolidation of agricultural holdings in Europe. Internatl. Inst. Agr. Monthly Bul. Agr. Econ. and Sociol. [Internatl. Rev. Agr.] 33(3): 57E-92E. Mar. 1942. 280.29 In83

Takes up causes of excessive fragmentation of agricultural holdings, the drawbacks of excessive fragmentation, the juridical basis of the consolidation of holdings (legislation in Germany, France, Italy, the Netherlands, Portugal, and Switzerland), the consolidation of holdings in practice (in Germany, France, Italy, Switzerland, and Bulgaria), various difficulties in the way of the consolidation of holdings, and the economic importance of the consolidation of holdings. Concludes that "consolidation is...of very great social importance as a means for improving the return of small holdings and their general conditions."

Radio talk, National Farm and Home Hour, October 16, 1942.

A billion more pounds of American pork will be needed in 1943 than in 1942 according to estimates of the Food Requirements Committee. To meet the demand a 10 percent in next year's spring pig crop is suggested.

HORSES, DRAFT

MCPHEE, HUGH C. The place of the draft horse in stepping up food production. Percheron News 5(1): 20-22. Jan. 1943. 42.8 P412

Address, National Conference of Percheron Judges and Breeders, St. Paul, Minnesota.

Because of the shortage of steel, rubber and motor fuel, farmers can make a constructive move toward furthering the food for freedom program by using animal power for every job it is capable of handling.

INCOME

LEWIS, A. B. Relation of income to capital on farms, Newfane-Olcott area, Niagara county, N. Y., 1913 to 1937. 141 pp.; processed. Washington, U. S. Farm credit administration, May 1941.
1.955 E2R27

For the purposes of this study, the land of the area was classified, and farm records, taken by the survey method, were kept for the various land classes. From these records, data on acreage, capital, expenses, receipts, and net returns, are given; and farm business trends in the different land classes are outlined. The emphasis of the study is on the relationship which farm capital and farm values bear to farm income. The principal crop of the area studied was apples, and trends in apple prices and the relation of these prices to farm returns are described, pp. 70-84.

LAND VALUATION for death duties; effects of the Uthwatt report -
 already! Land Union Jour. 39(6): 152-154. Dec. 1942. 282.8 L22

"In view of the confusion which will...result from the publication
 of the Uthwatt Report, it is suggested that those concerned in
 valuations for Estate Duty purposes should be very wary in agreeing
 to any figure with the Inland Revenue Authorities and that in any
 event advantage should be taken of the statutory provisions whereby
 payment of Estate Duty on land may be spread over eight years.

"Those liable for the Estate Duty will be in a much stronger posi-
 tion as against the Revenue by doing this than if they paid the whole
 duty in one sum and then found that the Government have only paid
 them a very small fraction of the amount upon which they had had to
 pay the duty."

THE LORDS riddle the Uthwatt proposals; criticisms from a two-day debate.
 Land Union Jour. 39(6): 123-142. Dec. 1942. 282.8 L22

"The two-day debate in the House of Lords (November 18 and 19)
 revealed a very large volume of opposition to some of the principles
 involved in the Uthwatt and Scott Reports, especially to the
 former..." Extracts are given from the speeches made, with the
 exception of Lord Brocker's speech, which is given in full.

The conference was held at Washington, D. C., March 19-21, 1942.
RYAN, BRYCE. Social and ecological patterns in the farm leadership
of four Iowa townships. Iowa Agr. Expt. Sta. Res. Bul. 306,
pp. 141-202. Ames, Sept. 1942. 100 Io9

"The present study was initiated...as an effort to learn more
about the relationships between farmers and the persons in whom
they repose confidence for leadership. Some of the more specific
questions which underlie this inquiry are: The extent to which
farmers can visualize and agree upon specific individuals as
effective leaders; the geographic patterning of agreement; the
roles of specialists and nonspecialists in different leadership
situations; the specific bonds or relationships existing between
farmers and their leaders, and the functional or official capacities
of the selected leaders in established programs and organizations."

LIVESTOCK

ALBA, JORGE de. The livestock industry of Mexico. Cattleman 29(8):
85, 88-89. Jan. 1943. 49 C29

First of a series of articles.

Part 1. Livestock statistics.

BRANAMAN, G. A., FICK, H. A., and HARRISON, C. M. Use of pasture in
a feeding program with steers. Mich. Agr. Expt. Sta. Quart. Bul.
25(2): 100-105. Nov. 1942. 100 M58S

Report on an experiment to determine the possibility of reducing
labor requirements in beef cattle production, conducted in 1941 by
the Upjohn-Richland Farm, of Richland, Mich., and the Michigan
Agricultural Experiment Station. The steers in the experimental
herd were divided into three groups--dry-lot fed, pasture plus self-
feeder fed, and pasture fed; and records kept of feed costs and
gains in weight.

CONWAY, H. M. Live stock faces a perpetuating cycle of emergencies. Natl. Live Stock Prod. 21(4): 8. Jan. 1943. 280.38 N21

Two major problems of livestock producers are: (1) sufficient equipment and labor to meet production goals and (2) adequate prices to meet increasing costs of production.

BOKER, HUGO. The progress of urbanization in the world. Internatl. Inst. Agr. Monthly Bul. Agr. Econ. and Sociol. [Reprint from Internatl. Rev. Agr.] 33(4): 95E-138E. Apr. 1942. 280.29 In83

CONDLIFFE, J. B. The economic pattern of world population. Natl. Planning Assoc. Planning Pam. 18, 54 pp. [Washington, D. C., 1943] 280.9 N2153

"This study is an attempt to set out the pattern of human resources upon which plans for post-war reorganization must be based. It will involve a summary and analysis of the known facts about world population and its regional distribution. In doing so it will take account not only of present numbers but of the trends of increase that may be measured for the recent past and projected into the immediate future. Its basic purpose is to analyze the economic significance of world population statistics rather than to present a study of the statistics themselves."

LANE, PAUL V. Population trends in California; changes since 1940 analyzed. Tax Digest 21(1): 12-14. Jan. 1943. 284.58 T192
Accompanied by a map showing counties where increases and decreases in population have occurred.

BURTON, HAROLD H. America looks ahead. Mortgage Bankers Assoc. Amer. Year Book (1942) 29: 198-213. 284.9 M84

Post-war problems, solution of which are necessary for a lasting peace, are outlined.

CANTERBURY CHAMBER OF COMMERCE. Post-war reconstruction. I. The economic bases. Canterbury Chamber Com. Bul. 216, 2 pp. Christchurch, New Zealand, Dec. 1942. 280.8 C16

"Prepared...after consultation with the Department of Economics of Canterbury University College."

"First of a series on Post-War Reconstruction."

Discusses the aims and methods of post-war reconstruction, stating that "the real question is...to determine just what part of economic activity shall be state controlled, and what part left free to operate itself as it will do if freed from control."

CASTILLO NÁJERA, FRANCISCO. After victory. Amer. Federationist 51(1): 14-15. Jan. 1943. 283.8 Am

A plan for world cooperation is outlined. "This generous plan is the only one which guarantees peace without the seeds of war, a true peace based on geographic and economic realities and, above all, on a just, democratic and human spirit."

CHAFEE, ZECHARIAH, JR. International utopias. Amer. Acad. Arts and Sci. Proc. 75(1): 39-53. Oct. 1942. 500 Am33

The author discusses four main types of international utopias which have been proposed for post-war world organization, illustrating each type by describing a significant book or books which have been written about it. The four types of proposals are (1) strengthening the League of Nations; (2) world union; (3) a United States of Europe; and (4) a socialist world union, similar to that of the U. S. S. R.

CHAPPLE, ELIOT D. How a world equilibrium can be organized and administered. Amer. Acad. Arts and Sci. Proc. 75(1): 33-37. Oct. 1942. 500 Am33

The author proposes and discusses a United States of the World for the post-war era, based upon the principles that "each state which forms an administrative unit must not be an ethnic or linguistic group, or even a nationality; it must be a natural geographic-technological region, within which trade and the exploitation of natural resources occurs within the bounds set by natural barriers, climate, and the common highways of travel, regardless of race, language, or ethnic identity."

CHASE, STUART. We can have it if we want it. Age of plenty looms ahead for America if we have courage to use techniques which war has thrust upon us. Progressive 7(2): 1. Jan. 11, 1943.

The author says it has taken a total war to prove the axiom that what is physically possible is financially possible and that when peace comes the financial techniques which the war has developed can be used to bring about full employment and production.

CHINA to-day and to-morrow: 9. Post-war industrial needs. Gt. Brit. and the East 59(1643): 30-31, 33. Nov. 21, 1942. 286.8 N27

States in part that "Third group of industries to be developed by China in her post-war programme are those connected with her export trade. These fall under three main heads: (1) Minerals; (2) Agricultural products; (3) Handicrafts and Art products."

CO-OPERATIVE views for a better Britain. Co-op. Rev. 16(12): 208-210. Dec. 1942. 280.28 C7823

"A summary of the evidence given by co-operative representatives to the Chrystal Committee which is dealing with aspects of reconstruction. The evidence was prepared by a sub-committee of the National Authority which met under the chairmanship of the Rev. G. S. Woods. Mr. S. R. Maudsley acted as secretary of the sub-committee."

Discusses various types of control, location of industry, planned location, export trade, and concentration of production.

CRIPPS, SIR STAFFORD. Basis for rebuilt world. Dangers of planning on global scale. Vital Speeches of the Day 9(6): 191-192. Jan. 1, 1943. 280.8 V83

Address broadcast from England to the New York Herald-Tribune Forum, New York, November 16, 1942.

DUTCH, OSWALD. Economic peace aims; a basis for discussion. 280 pp. London, Edward Arnold and co., [1941] 280 D952

The purpose of this book is "to give proposals for the execution of a practical, post-war economic plan" for the guaranty of future peace. The author states certain economic, political, and psychological premises; then takes up such matters as international political organization, the right to work, wages and hours, organization of production, consumption, trade policy, credit, capital and capitalism, currency regulation, government finance, raw materials and substitutes, colonies, and reparations; and shows how these individual matters should or may be handled in the proposed world plan.

EVERYBODY'S guide to post-war planning. Gt. Brit. and the East 59 (1645): 18-19, 21. Dec. 5, 1942. 286.8 N27

"A summary of the more recent and more important proposals." FIELD, FREDERICK V. The Mont Tremblant conference. Far East. Survey 12(1): 3-10. Jan. 11, 1943. 280.9 In782

An account of the high lights of the discussions of the Eighth International Conference of the Institute of Pacific Relations, held in Dec. 1942. Much of the discussion summarized deals with post-war reconstruction in the Pacific area, application of the Atlantic Charter, international cooperation, colonial policy, and the places of China, India, and Japan in the post-war world.

FLOURNOY, FRANCIS R. Washington plans a new economic and social world order. Social Ed. 7(1): 11-16. Jan. 1943. 280.8 So123

Outline of post-war plans and policies developed or being developed by the National Administration in Washington with respect to raw materials and markets, maintenance of production levels, relief of the destitute, improvement in world living standards, maintenance of economic stability (recent world wheat control agreement cited as an example), development of backward countries or areas, policies toward Latin America and Asia, and subsidies and investments.

FOSTER, WILLIAM TRUFANT. Post-war prospects for private enterprise. Mortgage Bankers Assoc. Amer. Year Book (1942) 29: 214-227. 284.9 M84

A program to prevent depressions in post-war years to be carried out by private enterprise, supplemented by public works, is suggested.

FUNK, WALTHER. Wirtschaftsordnung im neuen Europa. 30 pp. Wien, Südost-Echo verlagsgesellschaft m.b.H., 1941. (Schriften der Südosteuropagesellschaft e.v., Wien) 280.17 F96

Address before the Südosteuropa-Gesellschaft in Vienna, June 12, 1941, dealing with Germany's economic plans for Europe, particularly in the field of trade.

HADSEL, WINIFRED N. Allied governments in London--war efforts and peace aims. Foreign Policy Rpts. 18(19): 250-259. Dec. 15, 1942. 280.9 F76R

Part of this report deals with post-war planning, in which hindrances to post-war planning, "blueprints for relief," international cooperation, regional federation, and economic reform, are discussed.

HILDEBRAND, GEORGE H., JR. Depressionless transition to a post-war economy. Southwest. Social Sci. Quart. 23(3): 215-225. Dec. 1942. 280.8 So82

As an approach to the problems of post-war transition, the author considers "first, the sort of problems which are likely to confront us; and, second, the type of policies which may lie open to us."

HODGES, JOHN R. Economic analysis of current programs for world reorganization. Southwest. Social Sci. Quart. 23(3): 236-250. Dec. 1942. 280.8 So82

HOOVER, HERBERT. A new approach to peace. Avoid the whirlpool of intrigue. Vital Speeches of the Day 9(6): 185-187. Jan. 1, 1943. 280.8 V83

Address, Executive Club of Chicago, December 16, 1942.

"Now the essence of the proposal that I have made is that we have no armistice, no general peace conference, such as Versailles--that we set peacemaking in two stages. The first to be an instant "conditional peace" that will turn the world toward political and economic and spiritual recovery without the delays of last time. And then that the world should take time to cool off and work out one by one and separately the solutions of lasting peace."

HUXLEY, JULIAN. Reconstruction and peace. 47 pp. New York, N. Y., The New republic, [1942] 280.17 H98

Treats the following topics: The needs of reconstruction, "the mistakes of last time," desirability of preparing now for relief and order in Europe, proposal for a "reconstruction commission," recognition of regionalism and regional characteristics in reconstruction, "our new European order," the role of Germany in a reconstructed Europe, commodity and raw materials control, and the role of Russia in reconstruction.

INSTITUTE OF INTERNATIONAL FINANCE OF NEW YORK UNIVERSITY. Problems of European reconstruction. Inst. Internatl. Finance, N. Y. Univ. Bul. no. 123, 20 pp. New York, N. Y., Jan. 11, 1943.

284.9 In7

Problems discussed include political boundaries, treatment of minorities, world organization for maintaining peace, post-war treatment of Germany and of Germany's satellites, surplus population, and colonies.

JANSA, V. J. Hitler's economic new order in central Europe. Liverpool Trade Rev. 41(12): 152-156. Dec. 1942. 287 L753

Report of an address before the Liverpool Chamber of Commerce on November 24, 1942, in which Dr. Jansa "gave a critical résumé of the truth behind Hitler's attempt to impose on Central Europe a Nazi conception of Economic Order and pointed to the policy required to secure sound developments in the days of freedom which lie ahead."

JOHNSON, JULIA E., comp. Plans for a post-war world. 238 pp. New York, The H. W. Wilson company, 1942. (Reference shelf; v. 16, no. 2) 280 J623P

A collection of periodical articles, excerpts from pamphlets, etc., by authorities in the field of post-war planning, including a bibliography and a list of organizations and agencies studying along the lines of international post-war reconstruction.

LENER, MAX. Spending, planning, and power. Antioch Rev. 2(4): 612-627. Winter 1942. 280.8 An82

A critical examination of the economic theories of the Keynes-Hansen school, with special emphasis on the need for governmental planning in the economic field, and on the practical problems of transferring economic power from the conservative or reactionary groups to the more liberal and progressive groups.

LORVIN, LEWIS L. International economic development. Public works and other problems. U. S. Natl. Resources Planning Bd. Tech. Paper 7, 111 pp. Washington, U. S. Govt. print. off., 1942. 173.2 W214Tp

"Public works extending across national frontiers have occasionally been undertaken jointly by governments of different countries or by governments and private agencies of different countries for

various purposes. But only within the last ten years has the idea gained ground that international public works and developmental projects may be used more systematically as a means of combating industrial depressions and as a method of increasing employment through development of the economic resources of underdeveloped countries and regions. This report attempts to trace the economic background of this idea, to describe the methods by which it has been applied in practice, and to analyze its further possibilities for economic stabilization and development." The place of international public works in post-war reconstruction is also discussed.

MOULTON, HAROLD G., and SCHLOTTERBECK, KARL T. Collapse or boom at the end of the war? Brookings Inst. Pam. no. 47, 40 pp. Washington, D. C., 1942. 280.9 B79

Purposes of this pamphlet are "first, to reveal the facts as to business trends in the United States following the War of 1812-15, the Civil War, and the First World War; second, to indicate in what respects conditions at the end of the present conflict are likely to differ from those at the conclusion of the First World War; and third to gauge the economic outlook during the first two years or so following the cessation of hostilities."

MUNSON, GORHAM. Economic quicksands on the road to tomorrow. Antioch Rev. 2(4): 542-557. Winter 1942. 280.8 An82

SOIL CONSERVATION - ECONOMIC FACTORS

BERNABÉ NOLLA, JOSÉ A. Soil conservation in Puerto Rico and its influence upon the agricultural economy of the Island. In American scientific congress, 8th, Washington, D. C., Proceedings...1940, v. 5, pp. 303-329. Washington, 1942. Literature cited. 330.9 Am3008

The writer deals with the economic factors having a bearing on soil conservation, including population and land, exports and imports, erosion of the soil, rainfall, trends in crop production, income from agriculture, types and size of farm, land ownership, the farm debt, water resources, and the work of the Soil Conservation Service.

He concludes that "The problem resolves itself into two main factors: a dense population to be fed and clothed, and a limited land area with practically no support from the subsoil. The following elements come into play: food crops for subsistence, commercial crops for exportation to maintain a favorable trade balance, and most important of all, the human element which will sustain production and obtain subsistence and happiness therefrom. The answer may be a happy combination of commercial and subsistence agriculture working in a harmonious way."

EIRE AND Beveridge. Economist [London] 143(5183): 800. Dec. 26, 1942. 286.8 Ec7

"The Government has been requested by some members of the Dail to prepare an estimate of the cost of applying the Beveridge scheme to Eire. It may be safely stated, pending the publication of this estimate, that any scheme at all approaching the Beveridge scheme will be impossible in Eire in the next twenty years."

GRATTAN, C. HARTLEY. Beveridge plans are not enough. Harper's Mag., no. 1114, pp. 369-376. Mar. 1943. 110 H

The author notes that a scheme "very similar to that which Sir William proposes is actually in operation in New Zealand." He compares social insurance payments to "cut-rate security tickets on the national bus," but holds that the "real Blue-prints for the Future will have to include efficient prime movers as well as tickets for disabled passengers. And when we say efficient prime movers we mean such an arrangement of incentives and economic machinery as will provide jobs and goods, not doles and relief and the dreary hopelessness of WPA work projects."

OTEY, ELIZABETH L. British proposals for the future of social insurance and services. U. S. Social Security Bd. Social Security Bul. 5(12): 11-21. Dec. 1942. Bibliography. 173.2 SolSoc

Composite summary and discussion of recommendations and proposals made by various organizations and governmental agencies to the Interdepartmental Committee on Social Insurance and Allied Services (Sir William Beveridge, Chairman), with regard to a social security system for Great Britain. Proposals are summarized under the following topics: employment as the basis of reconstruction; scope of social insurance; qualifying conditions for reception of benefits; cash benefits; medical services; new benefits proposed; workmen's compensation; services for the unemployed; financing social security; administration of social security; administration of medical services; and group medical and health centers.

TARIFF

COHN, DAVID L. Tariff or no tariff. Atlantic Monthly 171(2): 86-91. Feb. 1943. 110 At

Criticism of our tariff policies, and an argument for freedom of international trade as a means of post-war reconstruction.

COSGRAVE, L. M. Operations of the Australian Tariff board, 1941-42. Canada. Dept. Trade and Com. Com. Intel. Jour. 68(2032): 25-30. Jan. 9, 1943. 286.8 C16

Includes the Board's findings on the subject of post-war reconstruction of trade. A new function of the Commonwealth Tariff Board is the investigation and making of recommendations "on all aspects of the general problem of secondary industries in the post-war period."

HENDERSON, GAVIN B. French agricultural tariffs; retarded development. Farming News and North Brit. Agr. 94(51): 4. Dec. 11, 1942. 10 N82

Cites an article written by Professor Marjolin in which is stated his "broad conclusion...that French agricultural tariffs were a thoroughly bad influence, holding back France's economic development, and were therefore a contributory factor to France's collapse." The present writer concludes that "A study of the French position certainly gives us cause for rejoicing that the British people...avoided the appalling blunder of agricultural protectionism."

TAXATION

ALLRED, CHARLES E., and LUEBKE, BENJAMIN H. Property tax burden of Tennessee farmers. Tenn. Agr. Expt. Sta. Rural Res. Ser. Monog. 143, 36 pp., processed. Knoxville, Dec. 1942. 173.2 W89Co.

Analysis, with statistical data, of property taxes as they affect Tennessee farmers, including kinds of taxes paid, tax burden by class of property, taxable acreage property by counties, assessed value of lots by counties, taxable personal property by counties, assessment variations by counties, relation of assessment ratios to land classes, variation in individual farm assessments, variations in acreage assessed, county comparisons of taxes paid per \$100 of owners' valuation, and variations in taxes paid on individual farms per \$100 of owners' valuations.

BENHAM, FREDERIC. What is the best tax-system? *Economica* (n.s.) 9(34): 115-126. May 1942. 280.8 Ec73

The author adopts as criteria for evaluating tax systems the principle of ability to pay and the principle of "least-price distortion" or least disturbance to the going arrangements and activities of the economic system. All specific commodity, service, or activity taxes are considered bad. Ability to pay is measured both by income and by possession of assets. Income, for tax purposes, is defined as consumption. A combined income-assets tax would, in the opinion of the author, most nearly meet the requirements of the criteria adopted. But the criteria themselves are shown in the end to be mutually incompatible; so that no practical tax system can fully satisfy either, but must operate as a compromise between the two. Three practical improvements in the British tax system are suggested: Replacement of the unearned-income tax by an annual, progressive, total-assets tax; a tax on "windfall" capital gains; and the abolition of present death taxes and their replacement by a tax on the successor or inheritor.

The Government's agricultural policy and the agricultural situation

are brought out. Table IV shows acreage of various crops, numbers of livestock, agricultural prices (index), and gross value and volume of agricultural production, selected years 1924-1942.

FLOOD, FRANCIS. Can we match this? U. S. Farm Credit Admin., News for Farmer Coop. 9(9): 11-12. Feb. 1943. 166.2 M47

Describes Britain's achievements in food production and the difficulties attending these achievements.

HARVEY, C. Survey of Indian farmers in the Central district. Fiji. Dept. Agr. Agr. Jour. 13(4): 120-123. 1942. 25 F47Ag

"In late 1939 and early 1940 a survey was carried out of Indian farmers (non-cane growers) in the Ra, Tavua, and Ba sub-districts with a view to collecting information as to the size of farm, type of farming carried out and relative efficiency of the different sizes and types of farms. Unfortunately pressure of work connected with the war effort caused the survey to be abandoned; it was possible only to measure crop acreages during the one period of the year only and a second visit to each farm to note the succession of crops could not be made. The information presented is also incomplete in other respects, but some points of interest emerge from a study of the tables given."

Tables show size of farms, acreage cultivated, rice plantings, legumes, maize and livestock.

HOLMES, G. A. British war-time agriculture. New Zeal. Jour. Agr. 66(1): 1-2. Jan. 15, 1943. 23 M48J

Broadcast "in the Pacific Session of the B. B. C."

Briefly discusses the organization of British agriculture, and the lines along which efforts may be carried out, such as land reclamation, introduction of labor-saving methods, and economies in the purchases of farmers' raw materials.

LLOYD, E. WALFORD. The call to agriculture in 1943. Field 181(4699): 74. Jan. 16, 1943. 10 F45

"So far we have seen that the call to agriculture [in Great Britain] is, in the main, to grow more wheat, barley, seeds in mixtures, potatoes and sugar beet, to produce more milk, and make more farmyard dung. To this can be added the appeal made to farmers to make the best use of all the auxiliary labour available to them, in particular to train and engage more members of the W. L. A. to replace the younger age groups of men who must be released for service with the Forces."

McDOUGALL, M. Minister deals with production of food for war. West. Farm Leader 8(4): 49, 61. Feb. 19, 1943. 280.28 W52

Notes the increasingly vital role Canadian agriculture plays in the prosecution of the war, the immense efforts farmers are called upon to make in producing food for the United Nations, and the questions attending these efforts. Explains why Britain wants heavy meat shipments, and reviews the labor situation.

NEILANDS, JOE. New Zealand agriculture. O. A. C. [Ontario Agr. Col.] Rev. 55(5): 256-257. Feb. 1943. 276.8 On8

Briefly takes up the organization of New Zealand agriculture. "All natural resources of the country are under direct jurisdiction of the government."

NORTHERN IRELAND. MINISTRY OF AGRICULTURE. Wartime farming in 1942.
North. Ireland Min. Agr. Monthly Rpt. 17(9): 329-333. Jan. 1943.
256.13 Ag82M

A section dealing with policy and legislation discusses price fixing of farm products, the Control of Employment (Agriculture) (Northern Ireland), Order, 1942, orders fixing rates of agricultural wages, the administration of the Land Improvement Scheme, and the Land Fertility and Hill Sheep Subsidy Schemes.

SPENCER, J. M. H. Food production battle in Rhodesia; Farmers assisted by subsidies and expert advice in their vital work for the nation; organisation functioning well and may become permanent. Farmer's Weekly [Bloemfontein] 64: 748-749. Dec. 30, 1942. 24 F225

Brings out the reasons that brought about the food situation in Rhodesia and the creation of the Central Food Production Committee, and discusses the loans for increasing production and subsidies granted by the Committee. The Committee's work and policy in regard to the labor problem is also noted. "So far the committee has been so successful that the Minister of Agriculture has publicly expressed the hope that in a modified form it will remain after the war."

UYS, G. J. C. Agro-economic survey of the Union [of South Africa]. III. The grazing areas of the Eastern mountain watershed areas 3A, 3B, and 3C. Farming in So. Africa 17(201): 797-806. Dec. 1942. 24 So842

"The prosperity of the grazing areas is obviously closely bound up with the prices of wool and meat, since these are the two main commodities produced in these areas. In so far as the production side is concerned, the chief problem with which farmers in these areas are faced is the marked difference between the summer and winter carrying capacity and quality of the veld... It will not be possible to place stock-farming on a sound basis unless a solution is found for this problem of feed scarcity during the winter." - Summary.

Includes discussion of farming systems in the areas under discussion (including farm values and farm utilization), crops grown, stock farming, and sources of cash income.

WAR-TIME food production: the work of war agricultural executive committees. Roy. Agr. Soc. England Jour. 103: 70-90. 1942. 10 R81

Consists of separate reports from the following committees: West Sussex, Kent, East Suffolk, and Devon.

WATSON, J. A. SCOTT. How Britain does it. Nation's Agr. 18(3): 6, 12. Mar. 1943. 280.82 B89

A condensed version of an address written by J. A. Scott Watson, Agricultural Attaché of the British Embassy at Washington, for delivery at the Union Agriculture meeting, Worcester, Mass., on January 6.

Lists the objectives of the British War Time Agricultural Policy and discusses briefly measures to control agricultural production.

AGRICULTURE - LATIN AMERICA

AGRICULTURA: ¿Está la salvación de nuestra agricultura en la elevación de los precios rurales? ¿La elevación de esos precios representa para la población urbana sólo un pequeño sacrificio? Rev. de Econ. [Mexico] 6(1): 8-10. Jan. 20, 1943. 280.8 R3293

Considers whether the salvation of Mexico's agriculture lies in

increase of rural prices and whether this increase would entail only a small sacrifice on the part of the urban population. The writer thinks the best policy would be to increase per hectare yields of crops, improve the quality of products, and improve agricultural methods.

FERNÁNDEZ, ANASTASIO. Breve síntesis sobre la agricultura en el Paraguay y el agricultor paraguayo. Paraguay. Min. de Agr., Com. e Indus. Rev. 2(7): 17-23. Sept. 1942. 9.7 Ag8R

Speech delivered at the Escuela Nacional de Agronomía "Mariscal Estigarribia," Sept. 30, 1942.

States that agriculture in Paraguay is characterized by a low state of development, with primitive, costly, and uneconomic methods of cultivation. Discusses the volume of production which is insufficient to meet the needs of the people and suggests education in the field of agriculture as a solution. A school plan is worked out.

GUTIÉRREZ ESCOBAR, JORGE. Programa de agricultura nacional para 1943. Vida Rural [Bogotá] 4(42): 5. Jan. 1943. 9.4 V66

Describes the 1943 program for Colombian agriculture which includes 1) intensification of production of annually harvested articles of consumption, 2) beginning of the extension of crops of medium and late yield, and 3) beginning of scientific investigations in tropical agriculture. An experimental substation of tropical agriculture is to be established with help from the United States.

HEMISPHERE need for more food: Steps to increase production. U. S. News 14(12): 54. Mar. 19, 1943. 280.8 Un33A

Describes briefly food production efforts and the outlook in Argentina, Canada, Central America, and Brazil.

MORA T., MANUEL. De la agricultura también depende la victoria. Rev. de Agr. y Com. [Panama] 2(16): 30-31. Dec. 1942. 8 R3291

Urges increased agricultural production in Panama to meet the country's needs and develop the food processing industry.

PURSLEY, THEODORE J. Ecuadoran economic changes. U. S. Dept. Com. Foreign Com. Weekly 10(10): 8-11, 37-38. Mar. 6, 1943. 157.54 F763

Discusses Ecuador's agricultural development, production of rice, bananas, cotton, sugarcane, wheat, castor beans, tobacco, strategic forest products, balsa wood, quinine, kapok, tagua nuts, petroleum, and mineral products. Present-day agricultural problems are enumerated.

SEOANE C., EDGARDO. Organización de las explotaciones agrícolas en Lambayeque. Vida Agr. [Lima] 19(228): 797-809. Nov. 1942. 9.8 V66

Discusses the problem of organization of the small and medium farm in the Department of Lambayeque [Peru], bringing out the need for cooperation and dealing with the problem of irrigation. Proposes a program of State aid which involves technical assistance and credit.

AGRICULTURE - OTHER FOREIGN COUNTRIES

CRONE, G. R. Notes on agriculture in the Low countries. Geog. Jour. 100(5/6): 235-244. Nov./Dec. 1942. 472 G29

Geography and types of farming in Belgium and the Netherlands, including present land use.

FRENCH agriculture. Economist [London] 144(5192): 268. Feb. 27, 1943. 286.8 Ec7

Expansion of oilseed cultivation to make good the loss of North

African imports is the main feature of Vichy's new agricultural program. A faulty price policy on agricultural products has led to illicit trading and bartering. Enormous masses of meat are being absorbed by the black markets and primitive barter has become the dominant form of trade.

HECKEL, PIERRE. Notes sur l'agriculture dans l'ouest de Madagascar. Madagascar. Bul. Econ. Trimest. (n. s.) no. 8, pp. 357-385. 4th quart., 1936. 270 M26Bu

This study on agriculture in the West of Madagascar, was originally written in 1930. It includes discussion of climate, soil and water, crops adapted to the region, irrigation and irrigation techniques, description of farms, farming practices and organization, farm machinery and advantages and disadvantages of using tractors, methods to be followed in cultivation of rice, sugarcane, tobacco, corn and other products, and suggestions for labor contracts and arrangements.

JAPANESE agriculture. Tasmanian Farmer 6(4): 13. Jan. 1943. 23 T186

A brief survey of Japanese agriculture, including land under cultivation, population supported by the land, loss of land workers to the cities, and indebtedness.

PATTON, JAMES G. Why food is scarce. Nation 156(10,11): 333-335, 374-376. Mar. 6, 13, 1943. 110 N

Discussion of our present food shortages and prospects of future shortages, which, according to the author's argument, are due to the attempt by big commercial farmers to monopolize production and squeeze out the small and medium farmer. He advocates a national program of food production, involving expansion of the farm plant, more efficient use of available resources, Government aid to the under-employed, low-income farmer, stabilization of the farm labor supply, "a system of forward pricing," and "a fully integrated food administration which is in turn fitted harmoniously into one over-all agency for total mobilization for total war."

SALTER, LEONARD A., JR. Farm property and agricultural policy. Jour. Polit. Econ. 51(1): 13-22. Feb. 1943. 280.8 J82

Discussion of basic economic factors and forces which are tending toward the destruction of the independently owned family-type farm, and bringing an increase in tenancy, the farm labor class, and corporation farming; with a statement of the implications of these trends for agricultural policy and administration.

- This memorandum "is signed by Earl De La Warr, Lord Addison, Lord Balfour of Burleigh, Lord Bingley, Lord Bledisloe, the Duke of Buccleuch, Lord Cornwallis, Lord Cranworth, Lord Perry, Lord Phillimore, and Lord Teviot."
- After listing the assumptions upon which a future policy for agriculture can be built up, this report deals with British agriculture in relation to the world, a nutrition policy applied to milk, a nutrition policy generally, the best use of land, distribution (including producers' marketing boards, processing, and marketing credit), and amenities.
- JOHNSON, CHARLES S. The South - now and later. U. S. Bur. Agr. Econ. Land Policy Rev. 6(1): 22-27. Spring 1943. 1 Ec7La
- Increased diversified agriculture, and rehabilitation of farm families through loans and guidance, are among the promising trends for the South's future.
- LANGER, OLGIERD. Readjustment of Polish agriculture - test case in post-war planning. New Europe 2(12): 361-362. Nov./Dec. 1942. Libr. Cong.
- The writer feels that of the possible methods of dealing with the problem of surplus agricultural population "modernization of farming, which leads directly to increased agricultural production and indirectly to increased agricultural employment, should precede both industrialization and emigration."
- He concludes "Since the principles of Poland's agricultural readjustment have been definitely accepted, America is willing to cooperate. As relief work must be started the minute war comes to an end, there is absolutely no reason to postpone the preparation of a detailed plan for the agricultural reconstruction of Poland by the joint body of American and Polish experts. Any delay in that matter will hamper the value of any post-war planning."

"Extract from the Report of the Wholesale Textile Association's Post-War Reconstruction Committee published last month."

"The committee's fifth submission is: -

"That a long-term policy for the restoration of British agriculture, based on the needs of the community for fresh home-grown foods to maintain a standard of nutrition adequate for public health, and on the maximum capacity of the farming industry to provide such needs with due regard to the preservation of soil fertility, should be placed in the forefront of post-war reconstruction programmes; and that any long-term finance required to implement such a policy, should be made available through public investment, if unobtainable on sufficiently favourable terms through other channels."

"Fourth of a series of special articles...on the economic position of the primary industries in relation to general [Australian] national policy. In this article...[the writer] compares an index of farmers' costs which he has prepared for 1911 and December, 1942. He reveals that farmers' production and living costs have shown an enormous increase in the past 30 years. He emphasises that based on this farm costs index wheat growers should have received £25,000,000 more for the marketable harvest of 153 million bushels of wheat in 1941-42."

Includes raw cotton consumption, maintenance of employment, and expansion of war goods production.

COX, A. B. Demands for United States cotton during the war. *Acco Press* 21(2): 10-11. Feb. 1943. 6 Ac2

The demand for cotton of various staple lengths is cited. Since the great majority of cotton mills in the United States were built to consume medium staples and grades of United States grown cotton, "it is highly important that farmers furnish the mills a sufficient supply of the medium to better grades and medium to longer staples to guarantee maximum production for the war program."

HILL, ROYCE B. World agreement to limit of cotton acreage proposed. *Southwest. Banking & Indus.* 43(8): 14, 27, 28-29, 30. Feb. 20, 1943. 284.8 So82

Text of an address before the New York Cotton Exchange's National Cotton Conference Forum, New York on January 29th.

LARRABEE, R. A. Cotton seed and industry. *Tenn. Planner* 3(3): 77-83, illus. Jan./Feb. 1943. 280.7 T25T

Outlines results of cotton and cottonseed research and considers some possible new uses for cotton.

LIPSCOMB, J. W. Tariff real cotton trouble says Farm Bureau leader. *Southwest. Banking & Indus.* 43(8): 15, 30-31. Feb. 20, 1943. 284.8 So82

Address before the New York Cotton Exchange's National Cotton Conference Forum, New York on January 29th.

"After victory America should not repeat folly of pegged price and an attempt to reduce cotton supply."

MOLYNEAUX, PETER. Every county urged to plant full cotton allotment. *Southwest. Banking & Indus.* 43(8): 6-7. Feb. 20, 1943. 284.8 So82

Believes that cotton should be declared an essential crop and that all restrictions on its planting be removed since there is a shortage of protein cake and meal for livestock. "However, if the restrictions are not removed, the next best course is to get as many farmers as possible to plant their full allotment." In this connection acreage figures are given by counties in Texas for 1942 and 1943.

[NATIONAL COTTON COUNCIL OF AMERICA] Recommendations and resolutions approved by the delegate-members. *Natl. Cotton Council of Amer. Prog. Bul.* 35, p. 3. Feb. 15, 1943. 281.3729 N212P

Recommendations submitted to the delegate-membership of the National Cotton Council of America by the Program Committee, and general resolutions, all of which were unanimously approved.

1941 annual report of the Río Piedras Association for the Improvement of Dairy Herds. Figures are given for production, value of milk produced, and costs of fodder and feeds.

CUNNINGHAM, L. C. Relation of replacement loss to the raising of dairy heifers. N. Y. Agr. Col. (Cornell) Farm Econ., no. 134, pp. 3395-3397. Feb. 1943. 280.8 C812

Gives figures of the estimated cost of raising a dairy heifer, price of a 1000-pound dairy cow, and the replacement loss per head (actual and adjusted) in New York, 1910 to 1942. An index of costs is given for the same period.

EFFERSON, J. N. Changes in the cost of producing milk in the New Orleans milkshed. La. Rural Econ. 5(1): 8, 9, 15. Jan. 1943.

Comparison of milk production costs in 1937-38, Feb. 1942, and Jan. 1943.

RUTLAND, EUGENE. A-milking we must go. Prog. Farmer, Miss. Val. Ed. 58(1): 14. Jan. 1943. 6 S081

With help from FSA a number of low-income farmers in St. Helena, Tangipahoa, and Washington Parishes, Louisiana, have answered the plea for more dairy products to meet war needs. The work these farm families are doing and the progress they are making toward becoming successful self-sufficient farmers is described.

DEBTS AND INDEBTEDNESS

MORSE, TRUE D. What is cheap land? Nation's Agr. 18(3): 7-8. Mar. 1943. 280.82 B89

Warns of the lure of "cheap land" and presents tables and charts which indicate the percentage of foreclosures, net income per acre, return on total investment per acre by type of land. "First grade lands have suffered the smallest number of foreclosures, whether they are livestock farms or grain farms." (Based on data of Montana State College.)

REID, EDWY B. Reserve payments increase on farm mortgage loans. Mid-West. Banker 37(3): 12, 38. Mar. 1943. 284.28 B222

"Mr. Reid tells how the Federal Land Banks and the Equitable Life Assurance Society have established Future Payment Funds and have been soliciting such deposits from mortgagees as a future security if farm income drops." - [Editor's note]

WILSON, FRANK R. Farm debt declines. U. S. Dept. Com. Dom. Com. 31(10): 12-14, 17. Mar. 11, 1943. 157.54 D713

Includes discussion of the following sub-topics: Farm mortgage situation analyzed; Accelerated decline in farm indebtedness; Rapid recovery in drought areas; Farm debt in other areas greatly reduced; Farm land values rise; Restrictive factors offset inflationary forces; Potentialities for inflation; Post-war farm market a stabilizing factor.

DEMAND

CLAWSON, MARION. Demand interrelationships for selected agricultural products. Quart. Jour. Econ. 57(2): 265-302. Feb. 1943. 280.8 Q2

Presentation and elucidation of a method of "direct attack on the problem of interrelated demands...by use of simple graphic methods and charts which relate the ratio of prices of two commodities to the ratio of their quantities...Charts of this type show the relation

between four variables (price of a, price of b, quantity of a, and quantity of b), rather than two variables, as do most price-quantity charts. This article will present some illustrative use of charts of this type for meats [beef, pork, veal, lamb, and chicken], certain fruits [citrus fruits, apples, peaches], and grains [corn, oats, and barley]."

FARM SALES

WISCONSIN UNIVERSITY. COLLEGE OF AGRICULTURE. Farm auctions in Wisconsin. Wis. Agr. Col. Ext. Serv. Spec. Cir. 14(1/2): 1-7. Jan./Feb. 1943. 275.29 W75Ec

A survey of farm auctions in Wisconsin in an "attempt to find out how many sales are being held, what class of farmers are selling and why, and what the sellers propose to do." The survey disclosed that farm auctions have been high in 1942, "probably higher than at any other time."

FEED AND FODDER

ASOCIACIÓN RURAL DEL URUGUAY. La escasez y carestía de forrajes para las cabañas y granjas; importante exposición de la Asociación rural. Asoc. Rural del Uruguay. Rev. 69(11): 5-7. Nov. 1942. 9.9 As5

Notes the scarcity of fodders for use on Uruguayan farms and prints the text of a note sent by the Society to the Ministry of Livestock and Agriculture in which the subject is studied with particular reference to corn. Brings out production, distribution (including consumption, exports and imports), prices, value of the harvest, and value obtained per hectare, all for 1937-1941, and discusses cost of production of corn, the importance of corn on the Uruguayan farm, Argentina's exports of poultry products, and the need for solving Uruguay's fodder problem to promote farm production.

FEED requirements and costs for different stages of growth and fattening in hogs. Hog Breeder 18(3): 4-5, 38. Mar. 1943. 46.8 H672

FERTILIZERS

HICKS, O. C. The lime-grinding industry succors agriculture. Marit. Farmer 48(11): 3. Mar. 2, 1943. 7 C77

"The lime-grinding industry of the province of New Brunswick has done a good job for twenty-one years in supplying its product to our calcium-hungry fields. The consumption during the past year was 46,913 tons and over the last five-year period was 159,842 tons."

RAYMOND, L. C. Fertilizers fight for freedom. Macdonald Col. Jour. 3(6): 2, 18, 31. Feb. 1943. 101 M144

Discusses the problems of the Combined Food Board relating to fertilizers, and the Canadian outlook for fertilizers. The Administration has taken the following steps: 1. Reduction in number of mixtures sold; 2. Standardization and concentration of formulae; 3. Fertilizer subsidization; 4. Reduction in cost of distribution; and 5. Establishment of a distinction between essential and nonessential uses.

FIBERS

ASTEN, OSWALD. Gegenwartsaufgaben und zukunftsansichten der deutschen bastfaserindustrie. Klepzig's Textil-Ztschr. 45(25/26): 531-532. June 24, 1942. 304.8 K67

On the present problems and future outlook of the German bast fiber industry.

DÖRR, R. E. Die synthetische faser in ihrer entwicklung und zukünftigen bedeutung. Klepzig's Textil-Ztschr. 45(25/26): 562-565. June 24, 1942. 304.8 K67

Describes the technical development of the artificial fiber industry in Germany and notes the importance of this development in making it possible for the Scandinavian countries and France, Holland, Belgium and Southern Europe to become independent of imports of raw materials for their textile industries. Chemical problems in the industry are discussed at some length.

[HISCOCK, J.] Broadcast talk by Mr. J. Hiscock, Sec. T. P. O. Tasmanian Farmer 6(4): 4-5. Jan. 1943. 23 T186

The Secretary of the Tasmanian Producers' Organisation discusses the future of the flax industry. "Growers' losses this season in Tasmania will probably amount to £50,000 and adding those of the two previous seasons, the total loss to farmers in connection with this war industry must be nearly £80,000."

RADA, EDWARD L., and DeLOACH, D. B. The Oregon fiber-flax industry, with particular reference to marketing. Oreg. State Monog. Studies in Econ., no. 3, 86 pp. Corvallis, Oreg., Oreg. State college [1942] References. 280.9 Or34

In this report, "particular emphasis is placed on the methods of marketing fiber flax. Special attention is given to the marketing agreement, paying growers, financing, assuming risks, assembling, storing, processing, grading, transporting, and selling to the spinning mill or manufacturing plant."

SATLOW, GUNTHER. Über flachs und hanf im europäischen Ostraum (Europäisches Russland und Baltische Staaten). Klepzig's Textil-Ztschr. 45(25/26): 533-540; (39/40): 773-778. Juni 24, Sept. 30, 1942. 304.8 K67

A detailed study of flax and hemp in European Russia and the Baltic States. The first installment deals with flax and brings out the varieties of flax in Russia, surface given over to flax cultivation, yields, and Russian flax exports to Germany in the last forty years, area and yields of flax in the Baltic States, future sufficiency in flax of Greater Germany and the Eastern Area of Europe, and mechanization of flax harvesting and the flax processing industry in Russia.

The second installment deals with hemp, bringing out the types of hemp, area, and yields of hemp in Russia, Russian hemp exports to Germany and future supply of hemp in the Greater Germany, mechanization of hemp harvesting, and processing in Russia.

THATCHER flax schedule pays farmers 'dividend.' Farmers Union Herald (n.s.) 17(2): 10. Feb. 1943. 49 T29

"Flax is paying the Northwest farmer a big dividend. Thousands upon thousands already have benefited from the 1943 flax schedule drafted by M. W. Thatcher, general manager of Farmers Union Grain Terminal Association. The schedule...increased acreage from 4,500,000 to 6,000,000 acres and the floor price from \$2.40 to \$2.70."

TOBLER. Der ersatz der jute durch andere bastfasern. Klepzig's Textil-Ztschr. 45(39/40): 767-769. Sept. 30, 1942. 304.8 K67

A discussion of various bast fibers which might be used as substitute for jute.

FRUITS AND VEGETABLES

DEAN, MARY V. All out for harvest. Agr. Student 49(2): 4-5. Nov. 1942. 6 Ag84

By appealing to the people for help, an apple grower in northeastern Ohio managed to save 50,000 bushels of food for hungry people. "In factories and schools he posted pleas for help. The local papers ran columns urging the people to use their leisure time to save the crop. Quickly they came - in ages ranging from 7 to 70; school children, housewives, factory workers, war veterans, preachers, businessmen, school teachers."

INCOME

ARE THE farmers underpaid? A comparison with city income. U. S. News 14(11): 41, 42, 44, 46. Mar. 12, 1943. 280.8 Un33A

Presents "official figures compiled by the Government" of the farmers' net income for 1942 and that of the city dwellers. "All the facts and figures cited point unmistakably to the fact that both the

farmer and the city wage earner are immensely better off than they were before the war. They clearly reveal, too, that the farmer's gain has been greater than that of the wage earner; that the improvement of his lot has been, in fact, much more extensive."

Conf. on Res. in National Income and Wealth. Studies in Income and Wealth, v. 4, 391 pp. New York, National bureau of economic research, 1942. 284 C765

"This volume is intended primarily as a contribution to materials for the study of the business cycle...

"The plan of the study is briefly as follows. Chapter I presents an introductory review of conceptual problems arising in the treatment of outlay and income and their quarterly derivation. In Chapter II annual estimates are derived for outlay and income, on a comparable basis suitable for further analysis. In Chapter III these annual estimates, regarded as independent measures of the national product, are compared; the extent to which this comparison gauges the precision of the estimates of the level of the product is discussed, and estimates of error are computed on various alternative assumptions. Chapter IV is devoted to the derivation of quarterly estimates of outlay...and Chapter V to quarterly estimates of income...In Chapter VI a comparison of the movements of the quarterly series for outlay and for income is undertaken...The discussion then centers upon the question as to which series affords the more reliable indicator of short run changes in the national product."

INSURANCE, SOCIAL See under SOCIAL SECURITYINTER-AMERICAN RELATIONS

BIDWELL, PERCY W. Good neighbors in the war, and after. Foreign Affairs 21(3): 524-534. Apr. 1943. 280.8 F76

Reviews briefly efforts to strengthen inter-American relations, beginning with a series of conferences at Buenos Aires in 1936, and describes how economic cooperation has worked. The discussion is divided into three parts: I. Mobilization of Hemisphere resources; II. Our aims and accomplishments; III. Postwar possibilities.

Brings out the common experiences in the background of the American countries, United States trade with Latin America, United States investments in Latin America, Axis political pressure and propaganda, United States measures to promote understanding, important Pan American conferences, moves to strengthen hemisphere defenses, and the importance of inter-American cooperation.

RASMUSSEN, WAYNE D. The United States Department of agriculture and inter-American relations during the first year of war. U. S. Bur. Agr. Econ. War Rec. Proj. Rpt. 1, 9 pp., processed. [Washington, D. C.] Feb. 1943. 1.941 A5R29

Reviews also relations previous to the war, and notes that the history of these relations "is a long and honorable story of an interchange of plants, ideas, and scientific missions."

In describing the various assignments and cooperative projects, the various agencies and personnel of the Department taking an active part are named.

ROVENSKY, JOSEPH C. Reciprocal accords ease wartime stresses and lessons in cooperation serve as springboard for progress. U. S. Dept. Com. Foreign Com. Weekly 10(9): 18-19. Feb. 27, 1943. 157.54 F763

JAPANESE

GERBI, ANTONELLO. The Japanese in Peru. Asia and the Americas 43(1): 43-46. Jan. 1943. 286.8 Am31

Condensed from a larger study, The Japanese in South America, "which is to be published soon by the Institute of Pacific Relations."

Traces the immigration of Japanese to Peru from 1897 through the succeeding years; describes the Peruvian suspicions of the Japanese, and the role of the Japanese in industry, trade, and agriculture. "More than 80 per cent of the Japanese live in the Department of Lima, comprising not only the capital and the most important port of the country, but also some of the richest cotton-growing valleys... Their specialization in cotton has been a result of economic factors. Cotton is the safest and most important crop on the Peruvian coast. It is not difficult to grow, but it requires much care, and the Japanese have proved adept at raising it. The only other Japanese agricultural activities worth mentioning are in the most accessible zones of the Amazon forest, where two or three concessions have been granted to Japanese."

Overseas trade, restrictions and wartime measures, and the danger of a Japanese "fifth column" are additional subjects discussed.

THE JAPANESE problem. Canada Poultryman 29(3): 7, 22. Mar. 1942. 47.8 C166

Discusses evacuation of Japanese from defense areas in British Columbia and urges a study of all factors "relating to the situation with heads of feed firms, packing houses and poultry organizations in the area, so that the removal of Japanese farmers will cause no lessening in egg production, and that cultivated land will not be left idle during a time when foodstuffs have assumed equal importance to munitions for the successful prosecution of the war."

LABOR - FOREIGN COUNTRIES

CEBALLOS, SEGUNDO. La política agrarista. Vaqueros [Havana] 1(1): 13, 16. Sept. 1941. 43.8 V41

Brings out the effect of the Cuban sugar industry upon agricultural labor, in reducing the farmer to a peon and introducing into the country thousands of workers from more backward countries; notes that the wages in the industry barely cover cost of living and induce a low standard of living; states that legislation has generally been directed toward maintaining the profitability of the industry without taking the standard of living of the Cuban family into account. Diversification of agricultural production is urged.

FARM labour policy; text of announcement of the national farm labour policy for 1943, made by The Hon. Humphrey Mitchell, Minister of labour, in the House of Commons. Weekly Market News and Mod. Farmer [Winnipeg] 21(10): 1, 2. Mar. 11, 1943. 286.81 G762A

The policy is outlined under the following headings: Stabilizing employment in agriculture; Dominion-provincial co-operative farm labour activity; return of workers to agriculture from seasonal employment; existing pools of manpower to be tapped; drawing from industries; mobility of labour; local agricultural war committees; movement of workers from low productive farms; experienced farmers will be used to advise; and discussion of program with Provincial authorities.

"This report outlines the man, horse, and tractor labor requirements for the crops most commonly grown in the area... Data were obtained from 50 farms selected at random, but in approximately equal numbers within each of the major size-type groups of operating units in the county."

HADEN, CHESLEY A. Labor for 1943. Mountaineer Grower 14(145): 3, 5-7, 9-10. Mar. 1943. 80 M86

Address before the 50th Annual Convention of the West Virginia Horticultural Society, at Martinsburg, Feb. 10, 1943.

"A study of the general labor picture...seems to justify the following conclusions:

"1. In 1943, and particularly at harvest time, we are apparently facing the greatest labor shortage within our generation.

"2. This condition is partly due to a gradual shrinkage in the supply of regular crop-producing labor from sociological factors, and partly to a drying up of picking reserves by war activities.

"3. The chief remedies for the situation apparently lie in a more appreciative approach to the regular-help problem, and in a replacement, in large measure, of reserves lost to war activities with mountain labor from nearby states - the recruitment, major cost of transportation, housing and any necessary training being supplied by the Farm Security Administration, with the full assistance and cooperation of the United States Employment Service.

"4. Early local labor surveys, cooperation in sharing available local supplies, farm labor volunteers and uniform grower agreements as to price and working conditions are all factors worthy of consideration in the total labor stretch-out."

HAM, WILLIAM T. Farm labor and 1943 goals. U. S. Bur. Agr. Econ. Agr. Situation 27(1): 12-15. Jan. 1943. 1 Ec7Ag

Discusses the prospective labor shortage in 1943, its probable effects on agricultural production, and ways of meeting it. To meet the shortage, emergency workers must be recruited, workers must be placed on farms where they are most needed, management and supervision must be provided, which will ensure the best possible use of available labor, and labor-saving machinery must be utilized to the utmost.

In a state-wide broadcast, Governor Thomas E. Dewey of New York "prepared to throw a broad farm labor program into motion..."

"The governor said the New York plan would be carried out by four agencies:

"1- The state farm manpower service, headed by T. N. Hurd.

"2- The United States Employment service, which has the general responsibility of recruiting and placing farm help.

"3- The extension service of the New York State College of Agriculture, which will teach high school students in the methods of modern farming.

"4- The state education department, which will direct the recruiting of youths over 14 for seasonal farm work."

LAND TENURE

H. Post-war tenure. Scot. Farmer 51(2617): 367. Feb. 20, 1943.
10 Sco8

"It is inevitable that in the consideration of post-war plans for
British agriculture the question of the tenure of agricultural land
should figure prominently, and two points seem to emerge naturally.
The first is that the agricultural tenant should be placed in a
position to enjoy a reasonable measure of security and confidence to
get on with the job, and the second is that the road should be clear-
ed of all legal barriers to get rid of the man who is not doing the
job efficiently."

HILEY, W. E. The landowners must show the way. Land Union Jour.
40(2): 45-48. Feb. 1943. 282.8 L22

Continues the series on The future of the land: A positive policy.

Emphasizes the need for a program to secure a much higher standard
of efficiency for landowners in order to avoid land nationalization
and offers five points for consideration towards this end.

M'DOUGAL, ARTHUR R. Post-war land tenure. The case against national-
isation. Scot. Farmer 51(2618): 330. Feb. 6, 1943. 10 Sco8

A criticism of a circular issued by the War Committee of the National
Farmers' Union and Chamber of Agriculture of Scotland asking for views
and tentatively suggesting a partial form of nationalization, in-
cluding a six-point program designed to create a sound occupying
ownership and tenancy system.

VOLIN, LAZAR. The Russian peasant and serfdom. Agr. Hist. 17(1): 41-61. Jan. 1943. 30.98 Ag8

Sets forth the salient features of the Russian servile system and the strivings of the peasant masses for freedom and land. "Serfdom was formally abolished in Russia on February 19 (March 3), 1861."

WHEN should tenant be notified? Wallaces' Farmer and Iowa Homestead 68(5): 137. Mar. 6, 1943. 6 W15

"Iowa's legislature has before it a bill which would repeal the law which says that a tenant (or landlord) must be notified by November 1 if the lease is to end March 1."

A survey of Iowa farm opinion indicates that 7 percent are for repeal; 39 percent in favor of the law as it is; and 44 percent believe the notification date should be moved back to September 1.

LAND UTILIZATION

U. S. NATIONAL RESOURCES PLANNING BOARD. LAND COMMITTEE. Public works and rural land use. 167 pp. Washington, D. C., Sept. 1942. 173.2 N214Pur

"This report presents a revised statement of the objectives and criteria for public undertakings to conserve and improve our rural land resources. It supplements and brings up to date the materials on this subject in the Report of the National Resources Board for 1934." Public works programs are presented for agricultural lands, range lands, forest lands, recreational lands, and wildlife lands.

LAND UTILIZATION - CANADA

LAND use and conservation. Farm Forum Facts, Mar. 15, 1943, pp. 1-2. 281.8 F227

Brings out the faults in the Canadian land settlement policy which have led to soil erosion, the need for proper land use, the Prairie Farm Rehabilitation Act of 1935, and the need for a national plan to preserve the soil, possibly in coordination with production requirements.

LAND UTILIZATION - GREAT BRITAIN

BRITISH INFORMATION SERVICES. INFORMATION DIVISION. National land control in Britain; report of Uthwatt committee: a summary. 4 pp. New York, Washington, etc. [1942?] (U 308 (I D)) 280.9 B772

"In January 1941 the Uthwatt Committee was appointed to study questions of land ownership and control..."

"The second Report, now published, deals with methods of securing that in the post-war reconstruction, land, both urban and rural, shall be put to the best use in the interests of the nation as a whole."

CLAPK, GEOFFREY. Planning a county. Country Life [London] 93(2399): 68-70. Jan. 8, 1943. 80 C83

Describes the planning scheme for Dorset County in England under which "the whole rural area...is protected against any form of development which would be detrimental to the landscape background. In the future greater attention will be given to the question of protecting the agricultural economy as well."

A survey is now being conducted of the present land utilization and other aspects "of the county's collective personality" which will help form the basis of a reconstruction plan along the lines of the Scott Report.

CHINA to-day and to-morrow: 13; problems of future Anglo-Chinese trade. Gt. Brit. and the East 59(1647): 18-19, 31. Dec. 19, 1942. 286.8 N27

"This, the final article of the series...[surveys] the problem of Anglo-Chinese trade in relation to post-war international politics."

CRIPPS, L. H. "Put currencies on basis of supply and demand." Gt. Brit. and the East 59(1655): 18-19, 21, 23. Feb. 13, 1943. 286.8 N27

Deals with the post-war position of currencies, noting the need for reestablishing a balance of trade based on peacetime requirements. This involves the recreation of "unilateral balances of trade between the different countries so as to avoid such debit and credit balances as threaten the destruction of currencies." Two essentials for this are a return to barter and "an international agreement... to forbid and prevent speculation in currencies." The writer then outlines a policy for treating "currencies on a supply and demand basis on which we can obtain the necessary stability and forward prices."

EDWARDS, ALLEN R. Post-war trade with Latin America. Com. & Financ. Chron. 157(4158): 922. Mar. 11, 1943. 286.8 C73

Warns our manufacturers that neglected contacts in South America mean future trade defeats and that our "Domestic tranquility makes it imperative that we guard against sweeping foreign trade defeats."

HONIG, PIETER. Future of export agriculture in the Netherlands East Indies. Far East. Survey 12(4): 38-43. Feb. 22, 1943. 280.9 In782

Discusses: Place of exports in country's economy; The sugar question; Tapioca an important export; Large-scale tobacco cultivation; Third greatest tea producer; Significant role of rubber; The future of rubber; Kapok and sisal; Quinine vs. synthetics; Efforts to help native farmers.

ECONOMIC CONDITIONS

AUGER, HERMAS. L'étude du problème économique de la région du Saguenay. La Forêt Québécoise 5(4): 207-218. Apr. 1943. 99.8 F79

Address at the Congrès Régional de l'Association Forestière Québécoise, held at Chicoutimi, October 5-6, 1942.

Study of the economic problem of the Saguenay region. Brings out the problem of surplus population and the need for finding an outlet for it, and the studies undertaken by the Lands Service of the Department of Colonization which involve a detailed inventory of the population, land types, land use and related information. Data obtained

for the four parishes (St. Augustin, St. Honoré, Ste. Lucie D'Albanel, and St. Thomas d'Aquin) completed to date are reviewed. Poverty of forest resources is brought out. The writer concludes that the solution to the region's problems lies in the drainage of low lands, improvement of lands now unproductive, the delimitation of a zone to an agricultural-forest economy, and the development of blueberry production, all worked out upon a foundation of extensive studies and research as noted above.

[BASIC data for Washington counties.] Northwest Indus. 2(6): 16-21, processed. Mar. 1943. 280.8 N812

Basic statistical data on population, land area and values, industries, and employed workers by occupations, are given for Columbia, Cowlitz, Douglas, Ferry, Franklin, and Garfield Counties. BRADLEY, DAVID H. Honduras faces its "unsold bananas" problem. U. S. Dept. Com. Foreign Com. Weekly 11(1): 5-8, 34-35. Apr. 3, 1943. 157.54 F763

Notes the effect of the war upon the Honduras banana industry and the difficulty of adjusting the country's economy to this condition. States that "Honduras possesses many natural resources vitally needed in the conduct of the war. Rubber and mahogany abound in the extensive jungles, and there are deposits of antimony, manganese, and nitrates in the highlands. Furthermore, the great banana plantations are said to be well suited for conversion to the cultivation of sugar, abaca, and other essential tropical plants. Development of these resources, however, must necessarily take time. Meanwhile, Honduras is faced with the problems of decreased customs revenues, poor internal transportation, shortages and rising prices, and unemployment." These are discussed.

"The main purpose of this report... is to present the human problems, as they relate to use of land and water resources, of the Southwest Intermountain Region; to show how these problems are, or are not, being met by the several agencies of the Department [of Agriculture]; to point the way to solution, through improvement and closer integration of Department programs and activities; and to help lay a foundation for interdepartmental and Federal-State collaboration."

LAND SETTLEMENT AND COLONIZATION

- HANSON, EARL P. Un ensayo de colonización en el Nuevo mundo. Hacienda 38(3): 98-102. Mar. 1943. 6 H11

Description of the Sosúa colonization project in the Dominican Republic. Selection of the colonists, activities, and future plans for the colony are brought out. The present plan is to maintain the economy of the colony on a subsistence basis for the duration of the war, but plans are being formed for the post-war period.

- LINDBERG, ERIK. Senaste tidens åtgärder för att skapa jordbruksegnahem. K. Lantbruksakad. Tidskr. 81(5): 381-402. 1942. 104 Sw3

Summary in English, pp. 401-402.

A discussion of the modern Swedish policy of rural settlement.

- MAJUMDAR, S. B. Estate farming in India. VII. Gosaba. Indian Farming 3(11): 573-577. Nov. 1942. 22 In283

Describes this deforestation and colonization project which was started in 1903 in the southernmost part of the Sunderbuns to deal with the unemployment problem among the middle classes of Bengal.

- RUEDA MARÍN, MANUEL. Parcelación. Agricultura [Madrid] 11(127): 454-458. Nov. 1942. 15 Ag84

A survey of land settlement in Spain from a historical point of view, bringing out work prior to the law of January 7, 1927, and since then. This law allowed the State to acquire private properties for settlement purposes. A table shows estates acquired and broken up by provinces and number of settlers, and there is discussion of the economic and social benefits of the parcellation program. A provision of July 23, 1942, puts the 1927 law back into force.

- STEWART, ANDREW. More farmers for Western Canada; a study of the possibilities of post-war agricultural settlement in the Prairie Provinces. 32 pp. Toronto, Halifax, The Ryerson press [1941] (Contemporary affairs, no. 9) 282.2 St4

Takes up what makes settlement possible, pre-war conditions and the possible effect of the war on settlement, subsistence farming, conditions favoring increased settlement, and possible areas of settlement. Concludes that relaxed restrictions on international trade, a change in restrictionist policies in the domestic economy, and improved nutrition through increased consumption of protective foods

would be some of the requisites for increased settlement and increased agricultural output.

TAYLOR, C. B. Daudawa - an experiment in land settlement. Farm and Forest [Nigeria], 3(4): 163-167. Nov. 1942. 24 F226

Describes in some detail the Daudawa land settlement scheme, in Katsina Empire, Northern Nigeria, established by The Empire Cotton Growing Corporation to multiply improved strains of cotton.
